POWELL'S BALSAM OF ANISEED
TRADE MARK.
EXTRAORDINARY CURE OF A COUGH

HER MAJESTY'S GUNBOAT "NETLEY,"
WICK, N.E. COAST OF SCOTLAND,
September 7th, 1868

DEAR SIR,

Having had a most distressing cough, which caused me many sleepless nights and restless days, I was recommended by His Lordship the Earl of Caithness to try your invaluable BALSAM OF ANISEED, and I can assure you with the first dose I found immediate relief, even without having to suspend my various duties; and the first small bottle completely cured me, therefore I have the greatest confidence in recommending it to the million

Most respectfully yours,
W. LINZELL, H.M.G.B. NETLEY

To MR POWELL.

POWELL'S BALSAM OF ANISEED,
For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use, and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard & Beedy Wholesale Agents, through whom Chemists and Storekeepers can obtain a supply.

THE PRICE IS WITHIN THE REACH OF ALL CLASSES.

Established 1824

Prepared and sold by THOMAS POWELL, 16 Blackfriars Road, London. Sold in bottles by all Chemists and Patent Medicine Vendors, throughout the World.

IMPORTANT CAUTION — Observe that the Words "THOMAS POWELL, Blackfriars Bridge, London," are engraved on the Government stamp affixed over the top of each bottle, without which none can be genuine.

ROBINSON'S
Celebrated Magic Soap

DIRECTIONS.

For doing a Large Family washing in Two Hours; of Five or Six Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover your white clothes to be washed, and let the soap dissolve; then put your clothes in, stirring them, and let them just come to a boil, then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them around in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any other article very dirty, should be rubbed through the hands a little while soaking in order to loosen the dirt before boiling.

2. While your clothes are soaking put the half of your cut soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes, then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boiled your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking it very dirty. Then rinse in clean water warm as your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP as good as Common Soap for general house purposes.

THE BRITISH COLONIST.

Sunday Morning, Dec 4, 1870.

The Petition and the Interview.

A petition has been in course of signature in this community for several weeks, asking His Excellency the Governor to place himself in immediate communication with the Governor-General of Canada, to learn whether the Dominion Government will consent to an addition to the terms of Confederation by which, 'If, after the necessary surveys for the purpose of the railway shall have been made, it be found impracticable to bring it at present to Vancouver Island, then a railway, upon the same terms and conditions as the other portions of the railway, shall be constructed between Victoria and Esquimalt and Nanaimo.' An influential deputation waited upon His Excellency the Governor yesterday, and presented the petition. A full report of the interview and its immediate results will be found in another column. We cannot say that we were unprepared for the attitude of the Governor or of the Canadian Cabinet. Indeed, it is precisely what must have occurred to the intelligent reflection of the community; and we may be permitted to add that it was anticipated in these columns weeks ago. The terms agreed to are, admittedly good—far better than most persons ventured to hope for; the very best that the Canadian Cabinet could hope to carry through Parliament. Under these circumstances it is of the utmost importance that Sir John A Macdonald should be in a position to state in his place in the House of Commons that the terms already agreed to by his Government were satisfactory to the people of British Columbia and had been accepted by them. But if, on the contrary, a member of the opposition should be able to get up and point to the fact that the terms were neither just to the other Provinces of the Dominion nor satisfactory to the people of British Columbia, would not that greatly tend to weaken the hands of the Government? Again, it must now be clear to the most obtuse intellect that it would be most dangerous to open up or in any way tamper with the terms. That they are good is admitted on all hands. That we could not expect better all must believe. That there would be great danger of our having to accept worse most persons must be conscious. It is, therefore, our true policy to avoid as far as possible doing anything to imperil or delay Confederation upon these terms. The reply of Sir John A Macdonald, in reference to the Graving Dock question, must convince all of the danger of tampering with the terms as negotiated—those to which the Dominion Government is already pledged. But, at the same time, there is no reason why the advantages—the *necessity* of having the transcontinental railway terminate at Esquimalt should not be agitated and pressed in the most effective way upon the attention of all concerned. Honest, healthy agitation on this subject can do no harm. It may do a world of good.

The Railway Terminus Petition.

THE DEPUTATION AT GOVERNMENT HOUSE.

Yesterday morning at 11½ o'clock, agreeably to appointment, Mr Henry Nathan, jr, (member elect for the city) Dr H Tuzo, Dr W F Tolmie, Mr J H Turner, Mr Lumley Franklin, Mr James Fell, Mr J D Pemberton and Mr J G Norris, waited upon His Excellency the Governor and presented a petition signed by 550 residents of Vancouver Island praying that His Excellency would transmit the document to the Canadian Government with his favorable recommendation. The petition asks for a guarantee of the construction of a line of railroad from Victoria to Esquimalt as a part of the Terms of Confederation, and has already appeared in these columns.

Mr Nathan having read the petition,

His Excellency said it might have the effect of indefinitely postponing Confederation. Already he had received petitions and resolutions from residents of New Westminster and other places on this very subject, and more were coming. The terminus was for engineers and surveyors to select. If the exigencies of trade required the terminus to come to Vancouver Island it would be so brought; but no man living could tell what difficulties would have to be overcome in its construction. The Canadian Ministry had undertaken a great work; but no terms of union could make this Island a practicable terminus unless it were declared so from an engineering point of view. The petition appeared to His Excellency to be in some respects ridiculous, not to say greedy. Why not leave the matter with the engineers, for surely the Canadian Government have no interest in placing the terminus at any but the most advantageous spot. Only the other day (His Excellency continued) I learned from the Canadian Government that the Terms arranged must be adhered to, and that should they be amended by us, the Canadian Government would claim the same right to amend, and commence the negotiations *de novo*. You appear to think Canada will be glad to get us. Admitted, but they will not give us any better terms. Newfoundland held out for better terms; has it got them? No; and it will not. For myself, I am amazed at the concessions that have been granted by the Canadian Government, and were it stipulated that this road should be brought across the Straits, it might not be built at all. Now, I think this petition should be withdrawn.

Mr Nathan—It is not in our power to withdraw it.

His Excellency—I do not think I can send it on. I should have to exercise my discretion. I should have to say that which would do it no good. You can't drive traffic into a particular channel by stipulation; but if found advantageous you may be sure the line will be brought to the Island.

Mr Norris showed that it was between this port and Nanaimo and Burrard Inlet that nearly all the disasters to shipping had occurred. However, the Canadian Government might at least guarantee the line between Victoria and Nanaimo.

His Excellency—That will stand upon its own merits; but my opinion is that a branch would not pay without through traffic.

Mr Norris—There is always great difficulty in getting coal down from Nanaimo for H M ships.

His Excellency—That point has great force, and will, no doubt, be taken into consideration; but I cannot send on this petition, coming as it does from only a portion of the community.

Mr Fell pointed out the material advantages that would flow from making Esquimalt the terminus.

His Excellency said that nothing could prevent Esquimalt being a good harbor and being used as such

Mr Fell thought this the time to point out our wants or grievances. The petition did not seek to stay Confederation; it sought only to point out certain advantages which we possessed with a view to their adoption by the Canadian Government and the good of the whole colony.

His Excellency—If we attempt to add a ryder to the terms they may be defeated. There will be opposition to them in any event in the Canadian Parliament, and the strongest argument the Canadian Ministry could urge would be that they had been already accepted by British Columbia. If amended, every clause would be discussed again by Parliament.

Mr Nathan said that the Canadian Government was not asked to bridge the Straits—it was only asked to guarantee a railway to Nanaimo.

His Excellency—That is a different thing. It is a fresh term, if it is not part of the transcontinental road. Besides, I do not think—indeed, I am sure—nothing further will be granted. I have already had a flat refusal with respect to an extension of the guarantee of the dry dock. The terms, now, are better than we had any right to expect—better than I expected. The true policy would be to accept these terms and be confederated, and then leave the natural flow of traffic to determine the terminus.

Dr Tolmie pointed to the vast tracts of land lying along the Bute Inlet route which would all be available for settlement in case the road came that way.

His Excellency replied that that was a strong point, but no stipulation could bind the company. With respect to the petition, he would rather not be asked to transmit it, because he would be bound to say it was not a Government measure, and that it was in the interest of a section and not of the whole colony.

Mr Turner said the petition did not require the terms to be reopened.

Mr Nathan thought that the interests of Victoria were the interests of the whole colony, because three-fourths of the capital and population is centered here, and whatever benefited Victoria would benefit the whole colony.

Dr Tuzo said the great majority of the people were opposed to opening the terms; but they wanted to secure Vancouver Island as the western terminus of the railway—its natural advantages being in its favor.

His Excellency the Governor replied that the Canadian Government understood our natural advantages quite as well—perhaps better than we do. He could not support this petition because it was the prayer of a section.

Mr Pomberton thought that as His Excellency had placed the deputation in possession of information that they had not had before, perhaps they had better withdraw a few moments for consultation.

The deputation then withdrew to an adjoining apartment, and after consulting together for about fifteen minutes returned, when

Mr Nathan stated that the deputation had arrived at the conclusion to respectfully request His Excellency to send the petition forward on its own merits and that the people of Victoria had no wish to hamper the Canadian Government in the terms. The deputation would also ask that an answer be returned before the Legislative Council should meet.

His Excellency replied that he was sure the Canadian Government would refuse the request; but if put in the way just stated he would forward it and leave the Canadian Government to form it sown conclusions.

Remarks were made by Dr Tolmie, Mr Nathan, Mr Norris and Mr Fell, to the effect that the people believed it wise to press for the Nanaimo road before the consummation of union.

His Excellency advanced it as his deliberate opinion that the petition was lost time and, to a certain extent, undignified. He would certainly send it on and tell the Canadian Government that it was not the wish of the entire community; but why did not the deputation send it themselves? If it went through his hands he must say that it is not a Government measure and that it is sectional in its bearing.

Mr Nathan urged the wealth and influence of Victoria as a reason why the prayer should be granted.

His Excellency said the wealth of Victoria was nothing when compared with the money that will be expended on the road. Perhaps it would be better for Canada to buy the whole thing out and thus overcome the difficulty.

A desultory conversation ensued as to the effect the railway would have upon the colony at large.

Dr Tuzo having mentioned the fact that parties interested in property on the Lower Fraser are now in Canada endeavoring to fix the terminus at their own section, His Excellency said that the gorges of the Cascades would have a great deal more to say on that point than anyone else. His Excellency added that having 'cleared his conscience' he would forward the document.

Mr Nathan suggested that an answer should be got before the House meets so that the passage of the Terms might be facilitated.

Mr Fell thought there were many who might oppose Confederation if the Terminus was not secured for the Island.

Dr Tuzo—Very few.

Mr Norris—Not over a dozen in the whole city.

His Excellency quite understood that if some persons' irons were not warmed by Confederation that they would try to defeat the whole scheme.

Mr Fell and Mr Nathan thought there would be much less chance of popular discontent if the Terminus were secured for the Island before Confederation.

His Excellency—I don't know that. You would sow the seeds of perennial discontent on the Mainland.

After some further remarks the deputation took their leave of His Excellency.

THEATRE ROYAL.—Miss Minnie Pixley took a benefit at the Theatre Royal last night, and that gifted and popular young *artiste* has good reason to be proud of the result. In the numbers and respectability of the audience, as well as in the enthusiastic applause with which the fair beneficiary was greeted throughout the evening, it is just to say that it has been the good fortune of very few to receive so hearty and unequivocal an expression of popular favor as that which was extended to Miss Minnie Pixley last night. The lateness of the hour and the crowded state of our columns forbid any lengthened remarks upon the merits of the performance itself. Suffice it to say that all the parts were well sustained, the Misses Pixley, Miss Susie Lee, Messrs Rhoades, Foster and others having been repeatedly encored. There was only one thing that tended in any degree to mar the enjoyment of the evening, and that was the line in the printed programme which reminded those present that last night was positively Miss Minnie's 'last appearance in Victoria.'

LOWER FRASER ITEMS.—The people of New Westminster are making preparations for the festive season, several balls being on the *tapis*. The first will be for the benefit of the Royal Columbian Hospital, the second will be under the auspices of the Hyack Co, and the third will be the Rifle Volunteer ball.... A petition has recently been put in circulation against any application being made to the Canadian Government without the concurrence of the entire colony.... At Burrard Inlet the Pocahontas was nearly loaded, and the Nancy was making rapid progress, as also the Admiral. The Delaware is loading at Moody's mill.

MECHANICS' INSTITUTE.—All lovers of music and rational amusement may expect a rare treat on Tuesday evening next at the Institute. Beside readings by Lieut Brodie, R N, and Lumley Franklin, Esq, we understand that the famous duets 'Hear me, Norma,' 'Annie on the Banks of the Dee' and 'The Happy Hunter,' the latter by Kuken, will be sung by lady amateurs of well-known ability.

MORE OF THE SAME KIND!—Capt James Frain unfurls his banner this morning as a coal and wood dealer. He has inscribed thereon—'Nanaimo coal, delivered, $9 per English ton. Newcastle coal, delivered $8 50 per English ton.' The Captain's name is cash. The Victorian who will 'wear' cold toes this winter must be either penurious or 'dead-broke.'

HORSE RACE.—A race came off on the Beacon Hill course yesterday between Lascelles' 'Greyhound' and Shannon's 'One-Eyed Susie.' The distance was 600 yards, single heat, for $400 stakes. Greyhound got the start but the mare soon passed him and won the race by two lengths.

FOG-BELL.—The Governor directs it to be notified, so says the Government *Gazette*, that a fog-bell has been placed in position on the Race Rock, in the Straits of Fuca, and will be used on and after the 1st December as occasion may require.

THE WAR.—The successful sorties from Paris have filled the friends of France with hope. It is evident that the Germans have met with severe reverses at a season when it is difficult to recover lost ground. Next week should bring us stirring news.

I. O. of O. F.—C N Fox, Esq, Grand Master of the California Odd Fellows, is coming up on the Pelican to institute the Encampment of British Columbia.

POLICE COURT.—The records presented a blank sheet yesterday.

Omineca.

The following is a copy of an official letter written by the Government Agent, or Acting Gold Commissioner, in the Omineca country. It will be read with some interest, as confirmatory of news already published:

PORT ST JAMES, Oct 24th 1870.

SIR:—I have the honor to acknowledge the receipt of your letter of August 20th, and with reference, I have to report that I laid over the claims in this District from Oct 9th 1870, to June 15th, 1871.

I intend to have waited until the season suspended mining operations, but miners here are so badly supplied with provisions that I laid over the claims on the 14th inst, with a view to enable them to proceed to the lower country before the rivers are frozen over and travelling becomes dangerous.

I have fixed the representation day for next season, as early as I consider it practicable for miners to get in their supplies to Germansen Creek.

Since my last letter, all the claims on Germansen Creek which have been opened have paid the miners engaged beyond their expectations, some of them yielding as high as fifty dollars per diem to the man.

A nugget weighing twenty-nine ounces, was found in the French Company's claim, which is situated above the Canon.

Some of the companies have not taken out much gold, but all are satisfied that they have good claims for the next season. I think there will be employment for three hundred men next season, on ground which has been tested, and should the upper portion of the creek prove to be good, it will give employment to as many more.

I have reserved a small flat on Germansen Creek, as the most eligible site for a town, and marked off eleven lots for building purposes, all of which have been taken at the usual rent of two dollars and fifty cents.

Three applications have been made to me to record land as pre-emptions, and I would be much obliged for printed forms and instructions at your earliest convenience.

I have not expended any of the money allowed for the trail across the Portage, as I consider that the work can be done to more advantage next Spring, after the snow melts.

From the terminus of the trail across the Portage, goods have to be taken down the Omineca in boats, and about three miles from the starting point there is an obstruction in this river, caused by drift wood accumulating and piling up for a distance of six miles.

At this point miners are compelled to make a detour, and portage boats and cargoes, about half a mile into a slough which connects with the main river below the 'drift pile.'

I think a sum of two hundred and fifty dollars expended in removing obstructions in the slough, and connecting it with the river would allow two-ton boats to pass without trouble, and obviate the necessity of a portage, making the road complete to Germansen Creek.

Fair prospects have been found on bars on the Omineca River near its confluence with Findlay River, and a prospecting party who ascended the latter, for a distance of one hundred miles, report that they found 'bar diggings' as high as they went, and are of opinion—from the geological formation of the country—that good diggings will eventually be found in that section.

The prices of provisions are exorbitant. The following is a list of the rates on Germansen Creek.

Flour	$1 25 ₱ lb
Bacon	1 50 "
Sugar	1 50 "
Tea	3 00 "

The majority of the miners intend going down the Skeena River route, to pass the winter at Victoria, or Fort Simpson, and I do not think many will winter here.

A difficulty occurred between some white men and the Indians, on Lake Tremblais, which threatened at one time to be serious, and I was compelled to go down and arrange the matter with the Indians. I am happy to report that everything is now quiet.

On Germansen Creek an attempt was made to drive off the fifteen Chinese miners who are located there; but on my arrival I established them in their claims, and they have not been molested since.

Trusting that my action in these matters may be satisfactory to His Excellency the Governor, I have the honor to be, sir,

Your obedient servant,
WM. H. FITZGERALD.

Hon. H. M. Ball,
Gold Commissioner, Cariboo.

FROM NEW WESTMINSTER.—The steamer Enterprise, Capt Swanson, arrived for New Westminster at 4 p.m, yesterday. She brought a few passengers but no Mail or Express from the Upper Country.

IN DISTRESS.—The schooner Clara L West, Capt Charitowoff, 23 days from San Francisco bound for Kodiak, put into this harbor yesterday afternoon in distress, having lost in a gale her rudder, foresail and jib.

TOWED IN.—The bark Ada was towed up from Esquimalt by the Grappler yesterday and taken alongside of Sproat & Co's wharf, where she will commence to discharge to-morrow.

TOWED UP.—The ship Golden Age, Capt Thomas, was towed up to Moody & Co's Mill at the Inlet yesterday to load with lumber for Callao.

FIRE ALARM.—The alarm of fire yesterday arose from soot burning in a chimney on Cormorant street.

I use it on the toilet table and the handkerchief, to the exclusion of all other perfumes."

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

British Columbia.

QUESNELL, Dec 2—Another boat load of Germansen Creek miners arrived from the diggings to-day. They confirm all previous reports of the richness of the diggings. The creek has been wing-dammed for 2 miles. Every claim that has got bed rock has paid from $6 to $100 a day. The creek has been prospected for 3 miles above the canyon and good prospects have been found for the entire distance. The creek is 30 miles long and has not been prospected over five miles. Jas May, Duncan, McMartin, Fred Black and Mike Burns are prospecting on a creek 12 miles from Germansen creek and have found good prospects. G B Wright has started for the Salmon river portage to open a new route to the diggings to which point the steamers will run next summer. The route will leave but one portage of nine miles to the diggings. The balance is good water navigation.

Europe.

LONDON, Dec 2—King William telegraphed to the Queen on the 30th the following: The sixth corps yesterday repulsed a sortie made by the French. Over 1,000 French were captured. There were several hundred killed and wounded. The sorties on the positions of the Wurtemburgers and Saxons were made at Corbeil Champayuy and Villers. The positions were taken by the Prussians. Sorties at the same time were made north and east of St Denis against 4th corps but were repulsed.

A telegram from Chatteau Lepipie Nov 30 says To-day the 2d and 3d Wurtemburg brigades with the 7th Prussians defeated the sortie of the French in the direction of Mont Missiia, after 4 hours hard fighting. The Prussians took 30 prisoners.

PARIS, Nov 30—Operations commenced yesterday at the different posts.

Ducrot occupied Mont Rantel but subsequently evacuated, the French renewing the attack in the South.

LONDON, Dec 2—Despatches to the Stock Exchange say Trochu has cut through the Prussian lines at the north of Paris in such force that the Germans were driven from their positions in disorder. A great battle is now going on west of the city.

TOURS, Dec 2—Noon—The papers say that on the morning of the 29th a sortie began at Choissey-leroi and Chwalleys. The battle there lasted through the nights of the 29th and 30th. Ducrot crossed the Marne, occupied Westeny and engaged the Prussians in battle. He then crossed the Maine by pontoons and maintained his position, taking 2 guns.

French despatches from Gambetta announce great successes at Paris where sorties were made in force, repulsing the Germans along the line many miles in extent. Many cannon and prisoners were taken by the French. The French were commanded by Ducrot Vinoy and Trochu. Gambetta who announced the victory says the effect was that the Prussians abandoned Amiens and are marching back to Paris. Battles before Paris began on the 29th. The garrison remained outside in the positions taken from the Prussians.

Gambetta says the army of the Loire successfully resisted attacks on the left and right wings and moved forward on all sides

LONDON, Dec 2—The German losses in the sorties on Monday, Tuesday and Wednesday were 157 officers and 5800 men, in killed and wounded. The French losses, partially ascertained, is 3400, but an additional report will probably swell the number.

LONDON, Dec 2—A dispatch received at Tours says Gen Vinoy with the first corps got wholly through the German lines on the South and effected a junction with a portion of Daurite's forces advancing from southwest.

The *Telegraph* says the French have won great advantages in the departments of the Seine and Maine and now possess a military preponderance never enjoyed since the opening of the campaign.

A special from Tours, official dispatches announce that Gens Trochu and Ducrot's troops surround the Prussians between Brie Sur Marne and Choisseyles Or, and Ducrot is now encamped 15 miles from Paris.

A special to the *Times* from Tours, Dec 1, says the army of the Loire has effected a junction with Trochu's forces from Paris.

The Germans under Prince Frederick Charles are retiring before the united forces. It is said that Trochu has with him outside the walls of Paris 300 cannon.

A dispatch from Prince George of Saxony received by the King of Saxony describes the fighting at Vaisey and Villiers in which the Saxon troops took part, and says that the French were repulsed and driven over the heights between the two villages leaving behind hundreds of prisoners. The French attacking force numbered 50,000

LONDON, Dec 2—Prussians have burned the town of Charleville. The Germans are still in force at Bon Lez Court.

TOURS, Dec 2—The members of the Government here have referred to their colleagues in Paris respecting the English note asking France to participate on the Eastern question.

A correspondent at Orleans telegraphed at 8 a.m. to-day that the army of the Loire is at this moment marching out from headquarters and leaving Orleans. The Prussians are concentrated between Jourville and Pithiviers.

ST PETERSBURG, Dec 2—The Czar warmly congratulates President Grant on his offer of assistance by an American fleet.

All the Powers have accepted the proposal for a conference, but the date of meeting is not yet fixed.

BERLIN, Dec 2—The Federal Councils have ratified the convention providing for the union of Bavaria with the Confederation. The Bavarian Diet meets on the 10th to take action on the treaty.

LONDON, Dec 2—The *Standard* warns England that the Gladstone Ministry are preparing for an infamous and disastrous capitulation to Russia. Despite of Granville's resistence a conference has been accepted without the withdrawal of the Russian note. The mere meeting of the Powers will be a virtual submission to all that Russia asks.

Eastern States.

NEW YORK, Dec 3—At this hour—1 p m—no European dispatches of to-day's date have been received at the office of the Associated Press. This is explained by the statement from the cable authorities that the directors of the line in England have ordered the transmission eastward by the French cable of all the messages which have accumulated in America since the recent disaster to the English cable. These messages are now going forward rapidly. Late events in France have caused an enormous increase in the number of messages both ways, and the capabilities of the telegraph, having only one wire instead of three as heretofore, are taxed to the utmost. The eastern business will, however, soon be cleared away, when dispatches will come forward as usual. Meanwhile the steamer Robert Lowe is actively at work repairing the English cable, and the telegraph authorities trust that communication will soon be restored in that direction.

California.

SAN FRANCISCO, Dec 2—Wheat—An advance of 1s 6d has been established in Liverpool since Oct 1st. The market is now 2s higher than at the same time last year. Our market is quiet. 1,300 tons choice to be delivered at Vallejo. Private extremes of markets $1 85@2 12½.

Barley—$1 25@1 40.

Oats—No sales $1 25@1 50.

Potatoes—$1 12½@1 75. Quiet.

The ship Prima Donna from New York reports that on Nov 10 in lat 57deg lon 59 passed three bales of what appeared to be wool each with 3 iron bars, floating lightly as if not long in the water. Ship Cremorne from this port for Liverpool June 1st with a cargo of wheat, copper and silver ore etc, has not been heard from. It is feared she is lost.

The Chamber of Commerce at a special meeting this morning appointed a committee to collect facts relative to the Australian trade. Col F A Bee addressed the meeting and said the difficulty between Webb and other parties had been amicably arranged, and the line would certainly be started if the subsidy was allowed. The committee was instructed to memoralize Congress to favor a subsidy.

The steamer Sacramento for Panama took no treasure and but a small number of passengers.

The case of Goodman, arrested for selling Marysville lottery tickets, came up to-day. The defendant pleaded guilty and was fined $500 by Judge Stanley. Goodman is considered to be merely a sub-agent, not one of the principals.

Charles N Fox, R W Grand Representative, will leave San Francisco for Victoria, B C, on the steamer of the 5th inst for the purpose of instituting the Encampment branch of the Order of Odd Fellows of the latter city.

Montana.

HELENA, Dec 2—Advices from the North say that a desperate battle was fought by the Grasventres and Assinibones against the Bloods and Piegans, near the boundary line. The latter tribes were defeated, having nine killed. Later in the day the Bloods and Piegans, joined by twenty white men who were camped in the neighborhood, attacked the Grasventres and Assinibones and killed all except one, who was allowed to escape to tell of the massacre. The number of the slain is about 100.

Mysterious Incidents.

The shocking casualities among prominent commanders in the present war, followed by sudden and amazing recovery, will be cited hereafter as the greatest curiosties of history.

The Emperor Napoleon died at Chalons at an early period in the struggle. He died again between Chalons and Mezieres. He tried to die a third time at the head of his army, but could not. At the present time he is in better health than he has been for many years.

Marshal McMahon, after being instantaneously killed at Sedan, recovered in time to be mortally wounded and die in Belgium. He is now convalescent.

Gen Failly was shot by his own troops. He was afterwards killed in battle by the Prussians. Finally he was executed for cowardice. He is now alive and well.

King William went raving mad, and was conveyed to Berlin in a straight jacket, ever since which time he has been in command at the front.

Bismarck has been shot. The Crown Prince was killed in action three weeks ago. Subsequently the former gentleman held several interesting conversations with M Favre and a newspaper correspondent, and the Prince, notwithstanding his untimely demise, has continued to make pretty lively times in the neighborhood of Paris.

The latest victim is Gen Von Moltke, who has been borne to his grave in three lead coffins, at three different times, and with three splendid funeral processions. He has not reappeared yet; but he has been so effectually buried that the resurrection will take no longer in his case than it did in the others.

What Breaks Down Young Men.

From the Scientific American.

It is the commonly received notion that hard study is the unhealthy element of a college life. But from the tables of Harvard University, collected by Professor Pierce from the last triennial catalogue, it is clearly demonstrated that the excess of deaths for the first ten years after graduation is found in that portion of each class of inferior scholarship. Everyone who has seen the curriculum knows that where Æschylus and political economy injure one, late hours and rum punches use up a dozen, and that their two little fingers are heavier than the loins of Euclid. Dissipation is a sure destroyer, and every young man who follows it is as the early flower exposed to the untimely frost. Those who have been inveigled in the path of vice are named Legion. A few hours' sleep each night, high living, and plenty of 'smashes,' make war upon every function of body. The brain, the heart, the lungs, the liver, the spine, the limbs, the bones, the flesh, every part and faculty overtasked and weakened by the terrific energy of passion loosened from restraint, until, like a dilapidated mansion, the 'earthly house of this tabernacle' falls into ruinous decay.

KEATING'S COUGH LOZENGES—AN important remedy in cases of INCIPIENT CONSUMPTION.

French Medicines,

PREPARED BY

GRIMAULT & CO.

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellency of Messrs. Grimault & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, chinge,—It is the best remedy against the first stage for consumption, and is the most powerful depurative known.

DOCTOR LERAS'

(Doctor of Medicine.)

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorous, which are the elements of the blood. It cures chlorosis, pains in the stomach, difficult digestions, dismenorrhea, anæmia, general debility and poorness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation.

Therefore to avoid any substitution, please to require the bottle the signature: Grimault and Co.

NERVOUS HEADACHE and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa,

Digestive Powders, Pills & Elexir of

PEPSINE.

Of certain effect against nausea, pituite, heart-burn, gastritis, gastralgia, children's diarrhœa, inflamation of the mucous coats of the stomach and bowels, vomiting during pregnancy jaundice, etc.

NO MORE COPABIA OR CUBERS.

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other Medicines have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most reputed medical men in France, in cases of derangements of the digestive functions, such as gastritis, gastralgia, long and laborious digestions, wind in the stomach and bowels, emanciplation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Paste

OF SEA PINE SAP.

These two preparations are invalnable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, colds, catarrhs, influenza, hooping cough, bronchitis, asthma, and also for the different affections, of the urinary organs

FERRUGINOUS SYRUP.

OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful digestions and impoverished blood; it is recognized as the best and most agreeable remedy.

TO PHYSICIANS.

New York August 15th, 1868.

Allow me to call your attention my PREPARATION OF COMPOUND EXTRACT BUCHU he component parts are, BUCHU, Long Leaf, Cubebs, Juniper Berries:

Mode of Preparation—Buchu, in vacuo. uniper Berries, by distillation, to form a fine gin. extract ed by displacement with spirits obtained from Juniper Berries; very little sugar is used and a small proportion of spirit. It is more palatable than any now n use.

Buchu as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates he smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exists. In this you have the knowledge of the ingredients and the mode of preparation

Hoping that you will favor it with a trial, and that pon inspection it will meet with your approbation,

With a feeling of profound confidence.

I am, very respectfully,

H T. HELMBOLD

New Remedies! New Remedies!

DR. GIBBON'S DIS R.

No 623 Kearney Street Corner Commercial, San Francisco, established in 1854. For the treament of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness. Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs, etc., successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue, fœtid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use, by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicines will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

YALE-LYTTON DISTRICT.

TO THE ELECTORS OF YALE-LYTTON DISTRICT:

Gentlemen—Understanding that Mr Farnard retires from the representation of this District, and having been asked by many influential inhabitants to stand as a candidate for election, I willingly consent to offer myself to you.

The coming Session is likely to be one of great importance and many questions of grave moment will undoubtedly be brought forword; and being myself deeply interested in the welfare of the Colony, and having now spent many years in it, I feel that my experience may be of some value in the Council if you do me the honor to send me there.

No one can fail to see the value to us of the proposed terms of Confederation with Canada, and I shall do my best to see the negotiations carried to a satisfactory termination.

I am in favour of the immediate adoption of the Canadian Tarif.

I can only add that the best interests of the Colony and especially of the district which I may represent will always be my especial study.

I am personally known to many among you and I ask for your support in the full belief that if you elect me I can be of service to you My utmost endeavors shall be directed to that end, and as I have no personal interes in offering myself as a candidate, you can well afford to believe me.

I have the honor to be, Gentlemen,

Your obedient servant,

no3 **CLEMENT F. CORNWALL.**

DR J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE,

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr Browne's—See Times, July 12 1864.

The Public therefore are cautioned against using any other than

Dr J Collis Browne's Chlorodyne,

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves Pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS

The Right Hon Earl Russell communicated the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet, Dec 31, 1864

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed."

Dr Lowe, Medical Missionary in India, reports [Dec. 1865] that in nearly every case of Cholera in which Dr J Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyn is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the General Board of Health, London, a to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as Chlorodyne from which frequent fatal results have followed.

See leading article, Parmaceutical Journal, Aug 1, 1869, which states that Dr J Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government stamp. Overwhelming medical testimony accompanies each bottle.

LEA & PERRINS'

CELEBRATED

Worcestershire Sauce,

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the Genuine is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the wrapper, labels stopper, and bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors such, or any other imitations by which their right may be infringed.

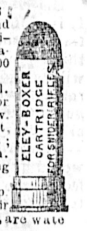

Ask for LEA & PERRINS' Sauce, and see Name Wrapper, Label, Bottle and Stopper.
